PROFESSIONAL SUMMARY

An accomplished SAP S/4HANA **Supply Chain Consultant** with solid 4+ years of experience in handling one full-cycle implementation, rollout, and production support across diverse industries. Specialized in Order-to-Cash (OTC), Pricing, Billing, Shipping, Warehouse Management with expertise in Business Process Planning, Gap Analysis, Blueprint Preparation, and Cutover activities, Go-Live, and Hyper Care/post-implementation support. Adept in Pricing Configuration, Credit and Debit Management, and Logistics Execution (LE), ensuring seamless integration and optimization of supply chain and sales processes. Hands-on experience with ABAP, IDOCs, and cross-functional modules like MM and TM, driving process automation and enhancing system flexibility.

TECHNICAL SKILLS

SAP Modules	Sales & Distribution (SD) , Materials Management (MM) , Extended Warehouse Management (EWM), Logistics Execution (LE), Transportation Management (TM) SAP R/3 ECC & SAP S/4 HANA, ABAP, Report Programming
Business Analysis	Requirements Gathering, Data Analysis, Process Improvement, Stakeholder Engagement, KPI Definition
Methodologies	Agile/Scrum, Waterfall, ASAP, Activate
Tools & Technologies	Power BI, Tableau, Jira, Git, Microsoft Suite, Azure DevOps (CI/CD), Visual Studio
Programming Languages	Java, Python, R Programming

PROFESSIONAL EXPERIENCE

Project : Coca-Cola | Role: Business Technology Analyst

Aug 2023 – Jul 2024

- ❖ Actively participated in **SCRUM** meetings to align backlog module implementations with released software versions and best practices.
- ❖ Designed and implemented an **SAP Fiori** user interface to input material, plant, warehouse, and customer details, and developed **RFC-enabled** function modules for shelf-life tracking, optimizing material distribution and reducing wastage.
- ❖ Configured and streamlined inbound/outbound warehouse processes, including **picking, packing, goods issue**, and storage location determination, achieving a 15% reduction in processing times.
- ❖ Conducted **training sessions** for warehouse staff, created documentation, and provided post-implementation support to ensure smooth adoption of **SAP EWM** functionalities.
- ❖ Integrated SAP **EWM** with **MM** and **SD** modules, enabling real-time stock tracking and enhanced cross-functional collaboration.

Environment: SAP Material Management, Extended Warehouse Management, SD SAP ECC 6.0, S/4 Hana.

Infosys LTD, India | Role: Senior Systems Engineer

Nov 2020 - Dec 2022

- ❖ Gathered and documented **business requirements** by leading meetings with key stakeholders, preparing scope documents, objectives, deliverables, and conducting AS-IS and TO-BE process studies to prepare **GAP** analysis documents.

- ❖ Implemented automation features in **SAP S/4HANA** to streamline the **Order-to-Cash (O2C)** process, including automatic order confirmation, **Outbound delivery creation**, and **billing**, reducing manual effort and improving order processing time by 15%.
- ❖ Configured and maintained **pricing condition** records for automating pricing in **sales orders**, including discounts, surcharges, and freight, ensuring accurate pricing calculations and improving overall sales order efficiency.
- ❖ Collaborated with SAP **MM**, **PP**, and **WM** modules to ensure seamless integration with **ATP** processes, coordinating with master data teams for accurate data management, enhancing cross-module functionalities.
- ❖ Identified and resolved system inefficiencies, proactively optimizing **order fulfilment processes**, reducing order processing time, improving delivery timelines, and enhancing overall customer satisfaction.
- ❖ Optimized Order Management processes by configuring **sales order types**, **route determination**, **availability checks**, and **logistics execution**, improving process efficiency.
- ❖ Led the design and configuration of **EDI/ALE** interfaces for seamless communication with external partners, including configuring **partner profiles** and monitoring **inbound** and **outbound** transactions, improving data exchange accuracy and reliability.
- ❖ Directed **SAP Data Migration** activities using end-to-end **ETL** processes, including extraction, transformation, and validation of master data (customers, materials, pricing), ensuring 100% data integrity during system migration with **CRM**.
- ❖ Developed **custom billing documents** and layout sets, and configured **pricing**, **material listings**, **exclusions**, and output **conditions** to meet specific business requirements, improving the accuracy and flexibility of billing processes.
- ❖ Led **cross-functional testing** (integration, unit, UAT) for SAP SD processes, preparing test cases and scripts, ensuring smooth implementation and flawless integration of sales, delivery, and billing processes.
- ❖ Trained **end-users** and stakeholders on **SAP SD functionalities**, conducting workshops and training sessions to improve user adoption, reduce support tickets, and enhance overall system utilization.
- ❖ Monitored **EDI transaction processing**, including tracking exceptions and resolving errors using **Azure DevOps** ensuring timely and accurate communication between SAP systems and external trading partners.

Environment: SAP SD (Order to Shipment), Material Management, Logistics Execution, S/4 Hana, Azure DevOps

Incline Inventions PVT LTD, INDIA | Role: System Engineer Trainee

May 2019 – Dec 2019

- ❖ Contributed to the creation of **Key Design Documents (KDD)**, **Functional Design Documents (FDD)**, and **Technical Specification Documents (TSD)**, ensuring alignment with business objectives.
- ❖ Assisted in **SAP SD testing phases**, validating system functionalities and ensuring seamless integration with core business processes.
- ❖ Gained foundational knowledge of **ABAP debugging** and supported the resolution of technical issues to optimize system performance.

CERTIFICATIONS

- ❖ Certified 'Global Agile Developer' by Infosys
- ❖ Certified 'SAP S/4 HANA Consultant' by Infosys

EDUCATION

- ❖ **Master Of Science** | Computer Science | University of North Texas | Texas | GPA: 4.0 **Jan 2023 – Dec 2024**
- ❖ **Bachelor of Technology** | Computer Science | RVRJCCE | India | GPA: 8.42 **Jun 2016 – Sep 2020**
